About the Company

ISSC – Integrated Standard Solutions Co. was established in Saudi Arabia to specialize in building, construction, finishing, and interior & exterior design. With a unique and high standard of knowledge and technology, and an expert sales force that aligns with the KSA 2030 Vision.

Our Mission and Vision

Our direction, values, and alignment with Saudi Vision 2030.

Mission

ISSC aims to become the preferred partner in every sector it serves — setting the benchmark for quality and trust in the market.

Vision

To provide integrated, high-standard solutions in construction, consultation, and outsourcing — delivering value and supporting national growth aligned with Saudi Vision 2030.

Core Values

ISSC's core values to ensure they align with our business direction and daily practices.

Quality

We maintain the highest quality standard in every service we provide.

Accountability

We deliver performance and outcomes that meet our partners' expectations.

Discipline

We pursue self-improvement, consistency, timely commitment, and excellence to stay focused on our goals.

Contemporary Staircase Elegance by ISSC

This modern staircase showcases ISSC's signature blend of structural integrity and refined design. Clean lines, high-end finishes, and seamless integration with surrounding interiors make it not just a functional element, but a central architectural highlight — merging elegance with everyday utility.

Refined Interiors by ISSC

A luxurious modern dining space blending bold patterns with elegant finishes

A contemporary lounge space featuring minimalist elegance

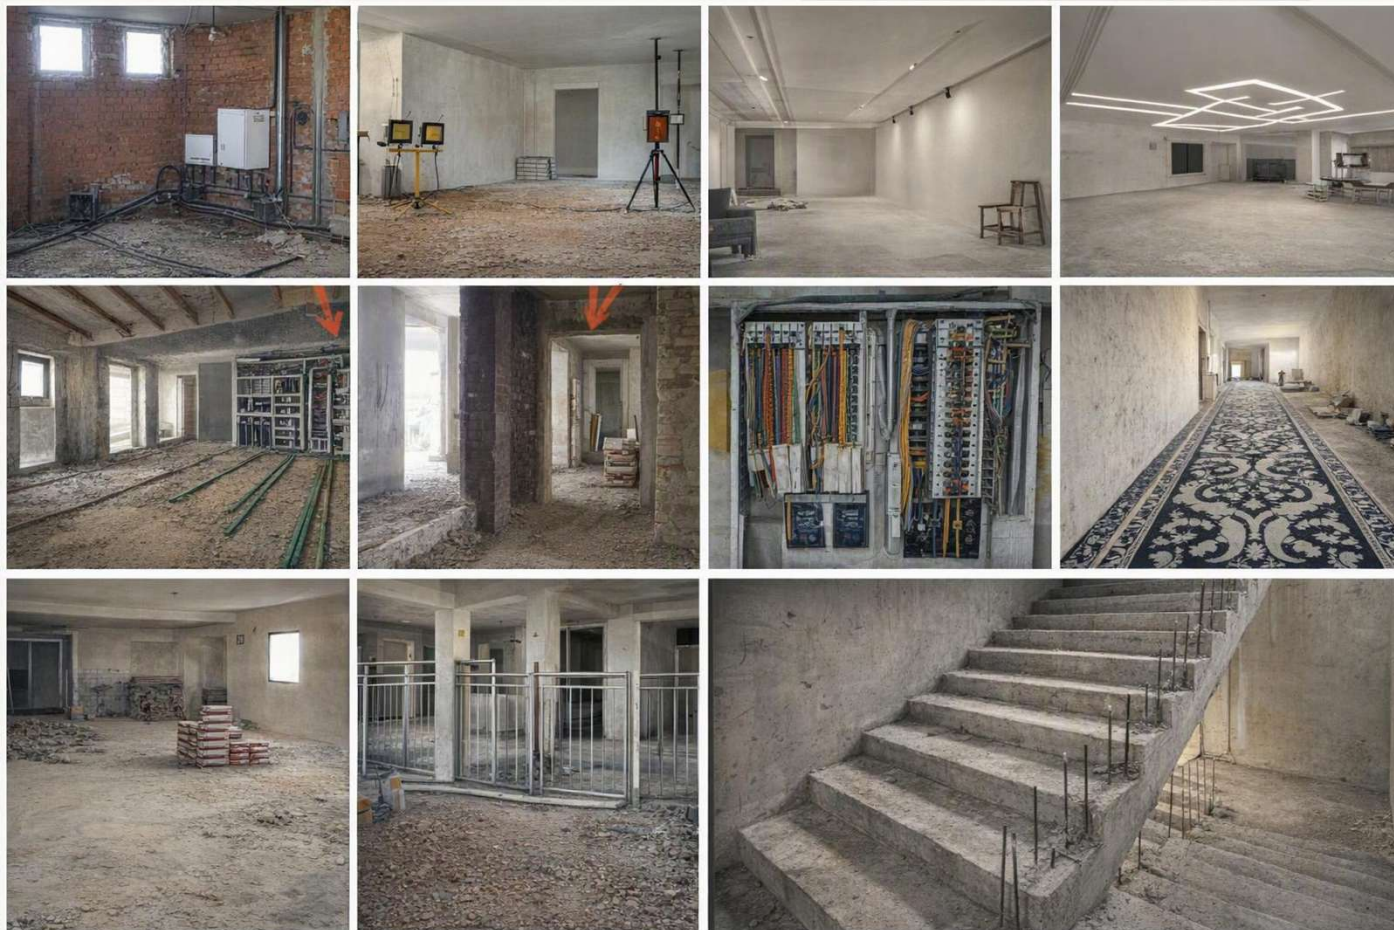

A welcoming reception space blending clean lines with warm, refined materials.

Your Interior Design Solutions

Project Portfolio

A glimpse into ISSC's expertise in construction, finishing, and interior systems — showcasing plumbing, electrical work, ceiling designs, tiling, and structural modifications with high technical standards.

Project Portfolio

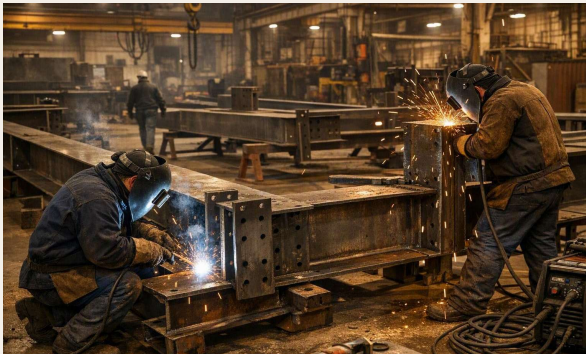

ISSC specializes in comprehensive interior and exterior works — from elegant ceiling and lighting designs to structural enhancements, façade treatments, and outdoor finishes

Steel Structure, Crane & Hoist Capabilities

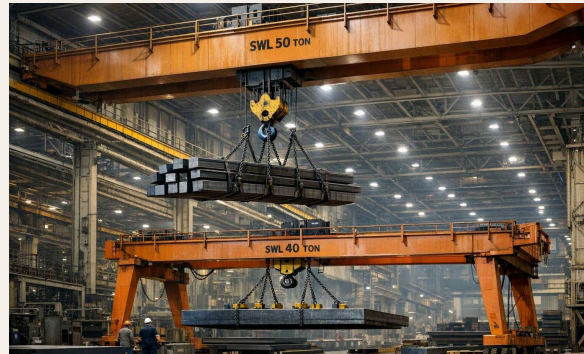

From detailed design and in-house fabrication to on-site erection, testing and commissioning, we deliver complete steel structure and lifting-equipment projects.

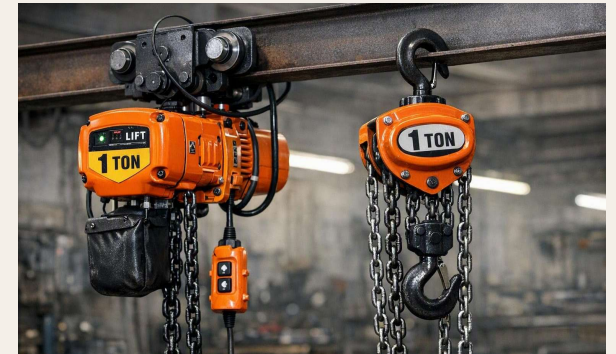

Steel Structures

Design, fabrication and erection of beams, columns, trusses, platforms, mezzanines and industrial buildings — welded and bolted to specification.

Cranes

Fabrication and installation of overhead bridge, gantry and monorail cranes — including runway beams, end carriages and full electromechanical commissioning.

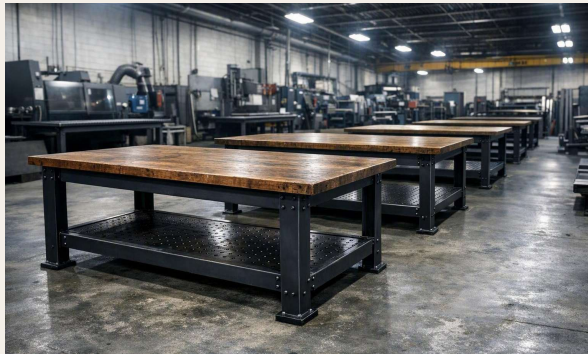

Chain Hoists

Supply, mounting and load-testing of electric and manual chain hoists and trolleys — certified for safe, reliable lifting on site and in the workshop.

Steel Fabrication for Interior Shops

Custom steel fabrication for retail and workshop interiors — benches, racks and display units built to your layout, powder-coated and installed on site.

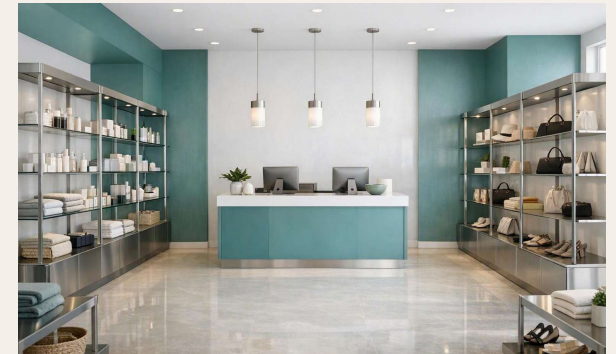

Custom Workbenches

Heavy-duty steel workbenches with powder-coated frames and hard-wearing tops, fabricated to shop dimensions.

Pegboard Display Racks

Perforated steel back-panels and branded headers for organised tool and product display.

Retail Shop Fit-Out

Complete in-store steel units, wall racks and counters fabricated and installed as a turnkey fit-out.

Our Process

Research

We begin by understanding client needs, project goals, and site conditions to ensure tailored solutions.

Design

Our experts craft detailed 3D interior and exterior concepts, blending aesthetics with functionality.

Finalize

We refine designs, materials, and technical details to align with client expectations and project scope.

Application

Our skilled teams bring the vision to life through high-quality execution across construction, finishing, and décor.
